

Project Logistics

Your project logistics
managed from A to Z.

Consider it done.

a GTS company

Support that assures you peace of mind.

In order to serve our customers better, we have immersed ourselves in the specific needs and challenges of various industries.

Our team of dedicated experts at Project Logistics are renowned for their proactive and dependable approach.

Our greatest value and success takes place when we work on these projects in co-operation with other partners.

Today, our customers come from various industries, including oil & gas, renewable energy, marine projects, mining, and infrastructure projects.

With our customer-centric mindset, proactive service, and integrated approach, we understand exactly what your industry requires and how we can truly make a difference for your company.

Our way of working.

Consulting Planning Budgetary Execution

Key principles and value add

Free logistics consultancy relating to investigating local challenges and global set-up of the supply chain.

Sourcing of local partners and vendors.

Advice in the procurement process.

Supporting project budgeting, bid and planning processes at an early stage.

Participation on project sites to survey feasibility and solution based logistics.

Full transparency and personalized follow up by dedicated personnel.

Flexible and willing to take on new tasks and services.

The benefits.

We believe that high-value and high-risk projects, should be managed with the highest level of care and risk reduction.

Experience and competence

A clear difference from the competition is our ability to integrate project capability with our other services, find unique and smart solutions to their project requirements, and when needed perform added value services larger companies are not considering or capable of.

We provide personalized follow up and speak the vocabulary of our client's industry through years of experience being engaged in it.

Integrated solutions

BGL has employees with extensive experience in the logistics industry.

Our ability to deliver dedicated and personalized service to customers' requirements, truly with a 24/7 approach.

Our personnel have extensive experience in the marine, offshore, and energy industries, which have some of the most stringent requirements, and are accustomed to designing turnkey solutions accordingly.

Location and facilities

Through our extended network, BGL and GTS will have the ability to manage projects in any geographical area.

We combine global reach with local knowledge. In locations where we do not have offices, we have strong partners with proven capabilities.

1

Reduction of interaction points

2

Increased velocity of supply chain

3

Compliance control

4

Accountability & transparency

5

Ensuring international standards
(HSE, Quality, Safety)

6

Increased overall convenience

7

Reduced risk of failure

Our portfolio.

Our shipping hubs, supply locations, and strong partner network are carefully selected and reliable, which demonstrates our global, regional, and local reach for all of our clients.

We are truly global.
